ABERDEEN, SOUTH DAKOTA 57401

IN REPLY REFER TO:
Land Titles and Records Office
MC-306A

Marc M. Radell
United States Environmental
Protection Agency
77 West Jackson Boulevard
Chicago, Illinois 60604-3590

Dear Mr. Radell:

We take this opportunity to respond to your letter of March 27, 1996, regarding your questions on boundary issues.

Our research shows the Deer Creek Indian Reservation boundary was established by the Executive Order of June 30, 1883, as being all of Township 62 North, Range 25 West of the 4th Principal Meridian. We are not aware of any tracts being excluded from this area at the time this Executive Order was established. Our records also show about 120 acres of Section 5 remains in trust status. All other portions of this township went to an unrestricted fee status in the early 1900s.

The United States Geological Service's quad maps of the Fond du Lac Indian Reservation show the descriptions in your attachment B. A modification should be done to include the changes recommended by the Minnesota Pollution Control Agency. This modification should include a change for Annamhasung Creek in Section 27. It needs to show only the E1/2. The W1/2 is outside the reservation boundary.

If you have any questions, please contact Harry Stanton, Cartographic Technician, at 605\226-7393.

Sincerely,

Acting Area Director
